I love to talk about generosity. I was 18 years old when this concept saved my life. Since then, it's been my mission to make a generous mindset the way people lead in their personal, family, and business life. The most giving people are the most fulfilled and ultimately, the most successful.

My favorite speaking topics are:

- Radical Generosity
- Giving Psychology
- Giving More than Money
- The Fulfillment of Generosity
- Philanthropy Isn't Just for Billionaires

Founder of Initiate Impact -
a Wealth Management Firm
focused on generosity
